VIENNA DISPATCH SAYS BULGARIA
STRENGTHENS TURKISH BORDER FORTIFICATIONS

Vienna, 14 July -- According to information from a reliable source, military activities are being stepped up in Bulgaria. Many light and heavy mechanized units have moved from the railroad station at Kolarovgrad in the direction of Plovdiv

It is also reported that the fortification operations along the Turkish border are being actively continued. All the military units which were stationed for a long time in the neighborhood of Yambol have been sent to the Turkish frontier

The town of Kurdzhali has been completely fortified and its inhabitants driven to other localities. The air base established here and the huge underground gasoline depots have increased the importance of this area from a military viewpoint.
